### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 5-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Burton (US 5,230,658).

Claims 1-3, 5-7

Burton discloses a propeller shaft for a vehicle comprising an elongated hollow cylindrical body (36) and a reduced profile intermediate portion defining at least one transition area between the intermediate portion and the body (24), wherein in the region of the transition area prior to receiving a sufficient axial load from a crash event, at least part of the cylindrical body lies over the intermediate portion such that upon receiving the sufficient axial load and during fracture in the region of the transition area, the body telescopes over the intermediate portion.

The shaft being a metal shaft. The intermediate portion having a reduced diameter as compared to the body in accordance with claims 2-3.

The intermediate portion (24) comprising between 5 and 30 percent of the length of the propeller shaft in accordance with claim 5.

The intermediate portion being angled near reference Number 50 with respect to the cylindrical body in accordance with claim 7.

***Allowable Subject Matter***

3. Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims 8-19 stand allowable. None of the references of references of record suggests a frangible telescopic propeller shaft wherein at least part of the cylindrical body lies over the intermediate portion of a frangible feature of the transition area prior to receiving a sufficient axial load from a crash event in the manner defined in the instant claim 8 and a method of making a propeller shaft in the manner defined in the instant claim 13 and in combination with other limitations of the claim.

***Response to Arguments***

5. Applicant's arguments filed 11/30/2004 have been fully considered but they are moot in view of the new grounds of rejection and of the allowance of claims 8-19.

***Conclusion***

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 3617

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frantz F. Jules whose telephone number is (703) 308-8780. The examiner can normally be reached on Monday-Thursday and every other Friday.
